

Dönges Rescue Knife

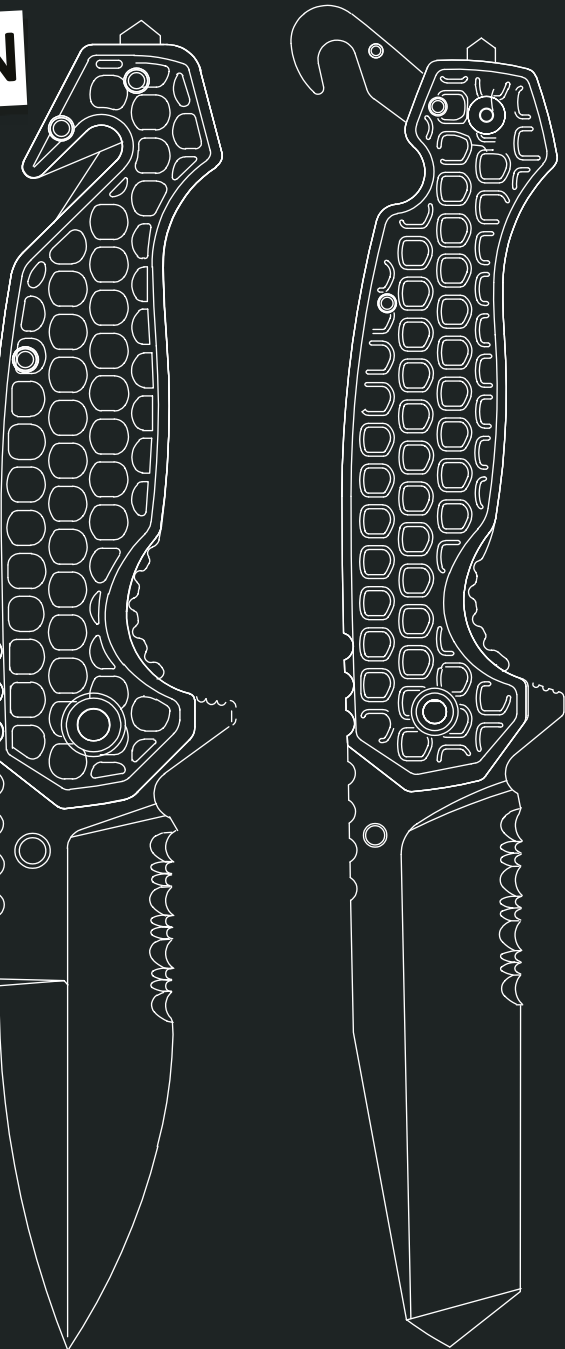

The highly functional Dönges rescue knife has been specially developed for the demanding everyday life of professional emergency services and is equipped with numerous practical features.

Thanks to the textured handles and ergonomically designed components, the different utility knives can also be used safely with gloves, in wet or cold conditions as well as in stressful situations. The range of knife applications has been further improved by the belt cutter and glass breaker.

Item-Nr.	Blade	Total length

SPECIAL SOLUTIONS
FOR YOUR APPLICATION**

Rapid deployment tent

In a world that is constantly on the move, you need equipment that keeps pace with the special forces. Our innovative quick set-up tent offers just that: lightning-fast set-up, robust reliability and versatile use.

These special tents can be used universally, are compact and weatherproof - on any surface and in any terrain. The domed roof creates an excellent feeling of space and can be extended as required by combining several tents.

Features

- short assembly time, low weight
- robust multi-chamber air frame
- tent connectors available as accessories

INDIVIDUAL DESIGN

other sizes on request

Our high-quality tool sets are specially tailored to the needs of special forces and special units.

Set-up time
approx. 90 sec.
(compressed air cylinder)
5 min (electric pump)
15 min (manual pump)

Breaking tool

Our high-quality tools are the first choice for quickly overcoming any blockages.

They allow safe access to protected areas without having to use explosives - a capability that can be vital in critical operations.

Titanium crowbar incl. emergency hammer function

The titanium crowbar is the first choice for quickly opening doors, windows or bars. Despite its minimal weight, the crowbar can also withstand heavy loads. The hammer function at the end of the handle can be used to smash glass panes and windows.

Item-Nr.	Material	Length mm
145001	Titan Ti64	274

Bolt cutters with Nupla fibreglass handles

Very high-quality and extremely robust bolt cutters with fibreglass handles. High-strength and insulating. Suitable for all applications. Cutting through hard material in particular, such as lock shackles, is no longer a problem with these bolt cutters.

Item-Nr.	Material	Length mm
146783	Steel	450

Tactical door ram

Thanks to its modular design, the door ram can be customised with its various attachments and adjustable handles. Both handles are fitted with a protective bar to prevent injuries.

Item-Nr.	Material	Length mm
146782	Solid steel	495

Dönges develops, manufactures and assembles your product ideas and customised packages.

Emergency Opening tool

The universal tool is used for quick rescue from all kinds of protected vehicles. There is the right attachment for every occasion to easily get situation under control.
